1) 323 Main Street – Extension of rear roof to join with roof at the main house and proposed changes to the exterior of the house

The meeting was called to order by Mr. Dan O’Brien at 6:00 p.m. Mr. Doug MacMillan, Architect, was representing the homeowners. Plans were emailed to the Commissioners beforehand.

Mr. MacMillan said in the front of the house they were considering replacing the current door with a more traditional type door. Removing the railings, adding a column at the corner of the porch and eliminating a porch step. On the right side of the porch, replace the French doors. For the 2nd floor windows, remove dormer and add (2) windows on that side. Add (1) window on opposite side. There may be more exterior house changes to be considered, which he will present before the Commission at a later date.

On the rear section of the house, Mr. MacMillan said they would be adding approximately 4 feet on the house North side. There would be a different roof pitch. At the bottom of the garage, they will add stone veneer. There were currently three garage doors. The first garage door would be replaced by a regular door. Mr. O’Kane asked if they would see a bit more of the existing roof from the street. Mr. MacMillan said yes, a little piece. Mr. O’Kane asked why were there different pitches. Mr. MacMillan said they were trying to match the roof to the main house. In essence, they were extending the top floor of the house. Connecting the main house with the garage in back. Currently, the upper floors do not connect. To get to the garage’s 2nd floor, you would have to go thru the mudroom, then climb the stairs. The garage 2nd floor has two bedrooms and a bathroom. Mr. MacMillan said they didn’t need the headroom at the link. Mr. O’Kane asked if they could step down at the link. Mr. MacMillan said the garage was dropped. But he could make it work using the garage pitch. He said he would change the roof pitch of the link to match the garage roof.

Mr. O’Kane said it was important to show the different pitches. He would like an updated plan showing the pitch changes agreed upon. Mr. MacMillan said he would email them tomorrow to the Commissioners.

Mr. O’Kane moved and Ms. Hanlon seconded a motion to conditionally accept the application for the roof as presented, subject to the updated plans being distributed and agreed upon by the Commissioners. Motion passed 5-0.

2) **11 Barlow Mountain Road** – Fence Replacement

Mr. O’Brien advised the application and plans had been emailed to the Commissioners beforehand. He asked if anyone had questions. No one had questions.

Mr. O’Kane moved and Ms. Daughters seconded a motion to approve the application as presented for the fence replacement. Motion passed 5-0.

3) **Approval of Meeting Minutes**
