

Town of Ridgefield  
Office of the Purchasing Manager

**Addendum Number 3**

Bid Number 26-08

*Request for Quotes*

*Roof Mounted Solar*

To All Bidders:

**The submission deadline for this project is extended until 11:00 am on Tuesday, 6 January 2026.**

**Appendix B – Eversource ZREC Agreement is not applicable to this solicitation.**

To All Bidders:

The following questions have been received;

*How many buildings can be used to reach the solar sizing you are looking to install? I see there are possibly three buildings on site. Is that correct? **There are three buildings on site (Salt Barn (western-most building), Garage 1 (southern-most building) and Garage 2 (Northern-most building). All roofs are available for installation, with the exception of the metal roof on Garage 2 (eastern-most portion of structure).***

*Are Prevailing Wage rates required because the town is looking for an ownership option and would consider a higher lease payment if the project is done with market rate? Typically, PW excluded for third party ownership, we are assuming that the town wants it priced at prevailing wage for us to calculate our lease offer off of. **Price as if PW applies.***

*Has the NRES been secured yet? **Yes, NRES has been secured for this project.***
