For Immediate Press Release

RIDGEFIELD, CT: May 13, 2020AM:

The Town of Ridgefield has partnered with DocsMedical Group to bring Town-wide COVID19 Nasal Swab- Drive-Thru Testing.

On **Saturday, May 16th**, at the **Parks and Recreation Center, located at 195 Danbury Road**, DocsMedical will be testing from 11:00 am to 3:00 pm (last appointment time 2:30) to do testing. No doctor's script required, but pre-registration is desired as there is a limited number of tests available.

The registration link for residents is:

<https://docsmedicalgroup.com/get-tested>

When registering, you must select **"COVID19 Ridgefield Resident"** from the drop-down as your reason for visit. You will enter your personal and insurance information there. If you are not insured, they will require additional steps at the time of the testing.

The tests are first come/registered, first served. There will be very limited tests for non-registered Ridgefield residents, so please register in advance.

On the day of the test, you must bring your license and insurance card! (a copy of both will help speed up the check-in process).
