

Ridgefield Library and Lyme Connection Present:

**Author Talk: *Lyme Madness* with Lori Dennis**  
Tuesday, May 2 @ 7 PM

Author **Lori Dennis** will discuss her recently released memoir *Lyme Madness: Rescuing My Son Down The Rabbit Hole of Chronic Lyme Disease*.

Chronic Lyme disease is a complicated, confusing, and terrifying abyss—a black hole of suffering, conflicting views and unrelenting medical navigation. *Lyme Madness* chronicles the author's and adult son's medical odyssey and provides a platform for the many voices of chronic Lyme sufferers, caregivers, and activists, along with the very few doctors and politicians all fighting for awareness and support worldwide.

Lori Dennis, M.A., is a Registered Psychotherapist in private practice with a focus on depression, anxiety, grief, ADHD, interpersonal conflict, and more. Her current focus is to spread the message of Lyme Madness, to help create a handbook for Lyme Literate Therapists and to grow a network of healers who can support chronic Lyme sufferers

This program part of the  
Noreen L. Papa - Mothers: Live Your Life! series.
