Ridgefield COVID Summary

Ridgefield COVID-19 Task Force

Friday, March 31, 2023

As of 2/24/2023, we are reporting only

1. COVID-19 Wastewater Analysis for Fairfield County
2. Bivalent Boosted Vaccination Rates for Ridgefield
Fairfield County: COVID-19 Wastewater Analysis

Due to the prevalence of unreported home testing, wastewater analysis is a more accurate measure of community COVID-19 levels than reported clinical cases.

Note that the Clinical Cases largely missed the Wastewater spike seen in late January.
